

Manutenção Nobreak DC

Realizamos uma manutenção em nosso site principal, onde existia um problema elétrico, no caso em questão o video fala sobre um defeito no Nobreak da TP Net mais verificamos mais tarde que não existia nenhum defeito no nobreak da TP Net e sim uma falha na tomada elétrica. Rapidamente corrigimos o problema.

Tiramos algumas fotos da manutenção e a caixa depois de montada. Lembrando que o Nobreak da TP Net é um equipamento estratégico em nosso sistema de telecomunicações, além de ser um excelente produto, permite uma organização excelente!! Em nossos sites.
